

VICTOR LAITILA

SOFTWARE ENGINEER

Helsinki · viclait@gmail.com · +358 44 363 3883 · linkedin.com/in/victorlaitila · victorlaitila.github.io/portfolio

Results-driven software engineer with strong full-stack experience in large-scale industrial software and modern web systems. Proven ability to deliver production-quality features in fast-moving, evolving environments. Backed by a strong academic foundation with top-tier GPAs and hands-on experience across the full software development lifecycle.

PROFESSIONAL EXPERIENCE

Software Consultant - Gofore

06/2026 - Present

- Continuing development of ABB's Drive Composer 3 as a software consultant at Gofore.

Software Developer - ABB

05/2023 - 06/2026

- Closed 300+ tickets across bug fixes, feature development, and refactoring in a large-scale industrial software product (Drive Composer 3).
- Built and shipped production-ready software using **Vue**, **TypeScript**, **C#/.NET**, **Azure DevOps**, and **Git**.
- Owned complex full-stack features, including technical design and architectural decisions.
- Improved system performance and maintainability through core module optimization and major refactoring, reducing latency, memory usage, and technical debt.
- Contributed to software architecture discussions and produced technical documentation supporting team-wide development standards.
- Worked in an international **Scrum**-based team, delivering regular demos to stakeholders and collaborating closely across cross-functional teams.

Software Developer - Teonos Oy

05/2022 - 03/2023

- Developed and maintained core functionality in an online booking system (Slotti).
- Implemented production-ready front-end features using **Vue**, **TypeScript**, **AngularJS**, **Git** and **GitLab**.
- Contributed to a major refactoring effort, reducing technical debt and improving system performance and scalability.

EDUCATION

Software & Service Engineering (M.Sc.) - Aalto University

09/2024 - 07/2026

Minor: Machine Learning, Data Science and Artificial Intelligence

GPA: 4.86/5.0

Automation & Robotics (B.Sc.) - Aalto University

09/2021 - 05/2024

Minor: Computer Science

GPA: 4.83/5.0

SKILLS

Frontend: React, TypeScript, Vue.js, AngularJS, CSS, Tailwind CSS

Backend & Data: Node.js, Python, SQL, NoSQL, C#/.NET, Scala

Cloud, Testing & DevOps: Azure DevOps, Google Cloud, AWS, Docker, Git, GitHub Actions, Robot Framework

Engineering Practices: Agile Development, Software Architecture, REST APIs, Figma

AI: Efficient in AI-driven development using tools such as GitHub Copilot, Claude Code, and Codex

ADDITIONAL INFORMATION

Languages: English (Fluent), Finnish (Native), Swedish (Native)

Courses: Reserviupseerikurssi - RUK 257 (Finnish Reserve Officer Training, 2021)

Honors/Awards: Scholarships for good academic progress (2017, 2018, 2022, 2023, 2024)
